– always check product labels. If you
serve food outside the home you must
make allergen information available
when asked.

Top Tips

- Rinse your measuring spoon under a hot tap before measuring out the black treacle. This will help to stop it sticking to the spoon.
- Make sure the wet ingredients are mixed together thoroughly before adding to the dry mixture.

Gingerbread and Apple Muffins

Method

1. Preheat the oven to 200°C/180°C fan or gas mark 6.
2. Put the paper cases into the muffin tin.
3. Peel and core the apples then chop into small 1cm pieces. Cut the lemon in half and squeeze the juice.
4. Place apple pieces in the small bowl and toss in lemon juice. This will stop them from going brown.
5. Mix together the dry ingredients (flour, sugar, bicarbonate of soda, ginger and cinnamon) in a mixing bowl.
6. Place the oil in the measuring jug. Add the black treacle.
7. Beat the eggs separately in a second measuring jug and add to the oil. Rinse out the jug.
8. Measure out the milk and add to the oil and egg mixture.
9. Pour the wet ingredients into the dry ingredients and stir until combined.
10. Fold in the apple pieces.
11. Spoon the mixture into the paper cases.
12. Bake for 15–20 minutes, until risen and just golden.
13. Cool on the wire rack. Serve warm.

Something to try next time

- Try using pears instead of apples.
- Add 75g of raisins with the apples.

Prepare now, eat later

- Muffins are delicious eaten warm from the oven, but can be kept in an airtight container for up to 2 days.
- Freeze for up to a month and defrost thoroughly before eating.

Skills used include:

Weighing, measuring, peeling, chopping, beating, mixing/combining, folding and baking.
